WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An ammunition storage facility is located 1.3 kilometers (km) northeast of Kaduy in a wooded sector and covers approximately 100 acres (Figure 1).

The installation is composed of a double-fenced storage area with associated support and housing areas. The wooded storage section, surrounded by a broad firebreak, contains 8 unrevetted storage and 7 support buildings. These buildings, situated within woods, are well dispersed and are accessible to an internal railroad spur by a network of roads

and trails. The support and housing activity is immediately outside the secured area and is composed of 2 barracks/administration buildings, 8 support structures, 2 warehouses, and 14 dependent houses in 2 separately secured locations (Figures 2 and 3).

[] KEYHOLE missions of interpretable photography covered the facility from [] [] Comparative analysis revealed the same level of activity. No new construction was observed.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur line enters the installation from a single-track railroad immediately to the south.

Road Service

A network of dirt roads and trails serves the installation.

Administration and Troop Housing Areas

Area D1 is fenced and contains 2 single-story barracks/administration buildings, two 110- by 60-foot storage buildings, and 8 single-

story support buildings.

Area D2 is fenced and contains 14 single-story dependent quarters.

Ammunition Storage Area

Area F contains 8 unrevetted single-story buildings ranging in size from 150- by 40-feet to 130- by 30-feet and 7 single-story support buildings. The buildings are well dispersed among the trees. The area is surrounded by a broad firebreak and 2 fences.
